

Projecis Names Paul TanPiengco VP, Marketing and Business Development, and Geoff Maddox, Chief Software Architect

Projecis continues to grow market share and staff as it adds features to collaboration software

SAN DIEGO – March 21, 2013 - [Projecis, Inc.](#), a content and collaboration software company, announces the appointment of Paul TanPiengco to the position of vice president, marketing and business development, and the promotion of Geoff Maddox to chief software architect. Both report directly to Projecis CEO [Russ Holmes](#).

[TanPiengco](#) previously held a number of positions where he was responsible for developing and implementing sales and marketing strategies and product launches at various firms including Photomedex, Onset Therapeutics, Biogen-Idec and Bayer Healthcare. He received his Master and Bachelor of Science degrees in biology and physiology from the University of Hartford, and an M.B.A. from Rensselaer Polytechnic Institute in Troy, New York.

"I am proud to be part of a dynamic team developing a [platform](#) that is clearly needed at many companies – large and small," said Paul TanPiengco. "Teams need advanced tools that are flexible, enhance team communication and collaboration, and retain knowledge in one place that is accessible anytime, anywhere. All this, while delivering a high level of value to the customer."

Prior to Projecis, [Maddox](#) worked at Synteract for a number of years as application developer and senior software developer, and designed and developed internal software and coordinated research of third-party products. He holds a degree in computer science from Stanford University.

"I love working at Projecis. It's great to be a leader on a software product that I believe in," says Geoff Maddox. "I'm excited about the direction of our software, and proud of the work we've done to develop rich and truly [beneficial features](#) for Projecis subscribers. And we have many more features in development such as electronic signatures, our first API and integrated data functionality."

"It's an exciting time at [Projecis](#)," said Russ Holmes, CEO. "Our company has been showing strong growth in the marketplace, and having Paul and Geoff as a core part of our team is very important. I'm personally delighted to be working alongside both of these gentlemen."

About Projecis

[Projecis](#) (pro-jek-sis) enables project stakeholders to connect teams, organize data, and disseminate information for better business decision-making. Project team members can access all types of content: files, imported data, milestones, tasks, assignments, issues, and news, which can be professional or webcam video updates. This secure, web-based platform allows for enhanced communications features

including VoIP calling, embedded conference center, integration with corporate email & calendar and private chat with intercom. Team knowledge is maintained with real-time commenting for group discussions, posted content and assignment status updates. Project management tools are also available including Gantt charts, resource views, task percent complete and project health. www.projecis.com.
